CENTER FOR PUBLIC SAFETY INNOVATION

BEYOND THE “VICTIM” LABEL

UNDERSTANDING HOW TRAUMA IMPACTS INDIVIDUALS

Each year thousands of Floridians experience trauma as the result of crime, disasters, and other harmful events. Whether physical or emotional, trauma affects each person differently. To effectively respond to victims it is essential for volunteers and professionals to see the individual beyond the “victim” label. This inclusive program will benefit probation officers, first responders, victim advocates, social workers, mental health professionals, law enforcement, child protection advocates, educators, and all victim service professionals. During this 8-hour interactive training participants will gain a deeper understanding of the following:

- Diverse ways in which individuals and population groups are victimized;
- Signs, symptoms and lasting effects of trauma;
- Core needs of victimized individuals;
- Effective approaches for responses to victimized individuals.

Bonus Event: CPSI encourages volunteers and professionals who interact with victims of crime and other harmful events to attend a complimentary training: **Building Resilience in the Aftermath of Victimization: Helping Trauma Survivors to Thrive**, being offered by CPSI the following day; Friday 8/10/2018 same location and times. *Separate Registration Required*
