The United States Attorney’s Office for the Middle District of Florida and the Center for Public Safety Innovation at St. Petersburg College are pleased to announce that the Project Safe Neighborhoods Violent Gang and Gun Crime Reduction Program will conduct a one day class on Confrontational Avoidance Techniques Training. The training is being held at St. Petersburg College Allstate Center. There are no fees or costs to attend the training.

This tuition-free eight-hour course is designed and developed exclusively for any staff member who has to deal with potential hostile conditions in the course of their employment. This updated and proven field & facility instructor level program has been taught nationally since 1992 with an overall 60% reduction in de-escalating use of force. Training focuses on avoidance of verbal and physical confrontations when dealing with irate, irrational, and hostile subjects where lawful staff member intervention is required. Developed within Federal parameters of verbal de-escalation skills, the course also addresses the proper lawful parameters of potential use of force if the staff member is physically assaulted by a subject. The program follows escalation & de-escalation of force based on the highly acclaimed, court proven “TJA Ladder of Force Continuum©.” This continuum has been recognized as a standard for juries in Federal Court cases since 1986 in better understanding lawful use of force actions by officials in the course of their employment.

- Field proven conversation techniques when handling confrontational and hostile subjects and groups.
